### Quick Facts about Young Voters in Minneapolis-St. Paul-Bloomington, MN-WI<sup>1</sup>: The Midterm Election Year 2006

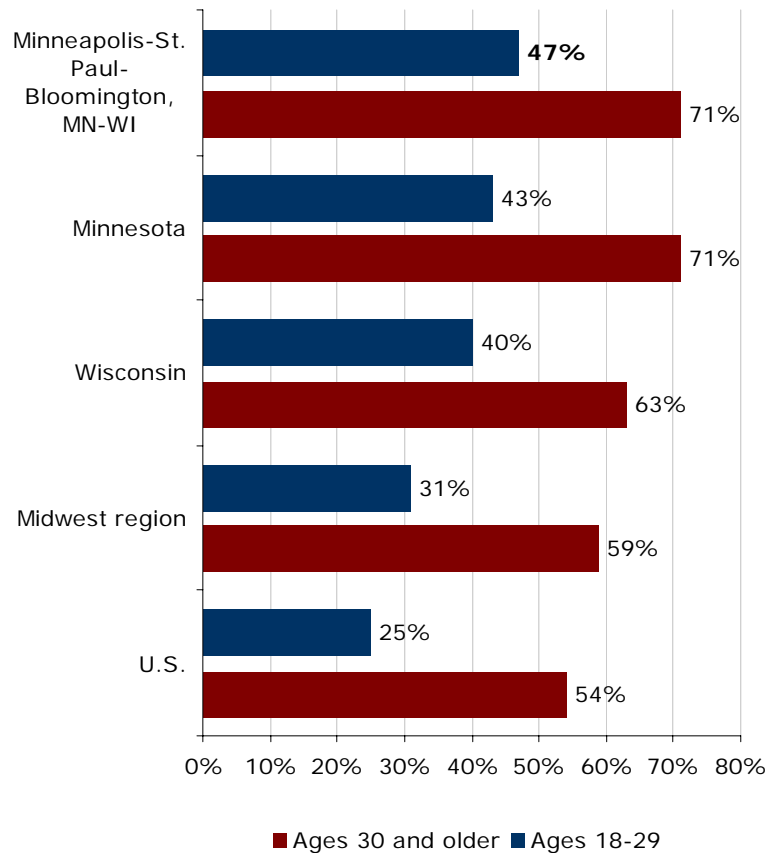

By Karlo Barrios Marcelo, Research Associate<sup>2</sup>  
July 2007

The 2006 midterm election was the second major election in a row that saw an increase in the electoral participation of young people ages 18-29. Between 2002 and 2006, the percentage of eligible young people who voted increased by 3 percentage points to 25 percent, the single largest increase among all age groups nationally.<sup>3</sup>

In Minneapolis-St. Paul-Bloomington, MN-WI, the voter turnout rate among young people was 47 percent, four percentage points above Minnesota's state average, and twenty-two points above the national average. An estimated 201,000 young people from Minneapolis-St. Paul-Bloomington, MN-WI, voted in the 2006 elections.

There was a 29 percentage point gap between young people and adults in the U.S., and this gap was smaller (24 percentage points) at the more local level of Minneapolis-St. Paul-Bloomington, MN-WI.
